

ASHWIN ANTONY JOSE

UI/UX Designer, AI website developer

+91 9778232241 ashwinantonyjose28@gmail.com

LinkedIn Profile

Education

Carmel College of Engineering and Technology <i>Bachelor of Technology in Computer Science and Engineering</i>	2023 – Expected 2027 <i>Alappuzha, Kerala</i>
--	--

Skills

- UI/UX & Product Design:** Figma (Expert), Wireframing, High-Fidelity Prototyping, User Flows, User Research, Information Architecture, Responsive Design
- Design Systems:** Component Design, Auto Layout, Interactive Prototypes, Visual Hierarchy, Design Consistency, Reusable UI Components
- Design Expertise:** Mobile App Design, Website Design, Landing Pages, SaaS Interfaces, Dashboard Design, Responsive Web Interfaces
- AI Development:** AI-Assisted Application Development, Generative AI, LLM-Based Development, AI Workflow Integration, Rapid Prototyping
- Prompt Engineering:** Advanced Prompt Design, Context Engineering, AI Coding Workflows, Code Generation, Debugging, UI Generation, Prompt Optimization
- Web Development:** HTML5, CSS3, JavaScript, Responsive Web Design, Front-End Development, API Integration
- AI-Powered Development:** Building Functional Websites and Web Applications using AI Coding Tools, Converting Ideas and UI Designs into Production-Ready Code, AI-Assisted Debugging and Feature Development
- Development Tools:** VS Code, GitHub, Netlify, Render, Supabase, MongoDB
- Soft Skills:** Communication, Team Leadership, Creativity, Collaboration, Problem Solving, Design Thinking

Experience

Techgentsia Software Technologies Pvt. Ltd. <i>UI/UX Design Intern</i>	June 2026 <i>Alappuzha, Kerala</i>
- Designed user-centered interfaces, wireframes, and high-fidelity prototypes using Figma. - Applied UI/UX principles to improve usability, visual hierarchy, consistency, and responsive experiences. - Worked on practical design tasks and strengthened skills in interface design, prototyping, and design workflows.	
Srishti Campus <i>Intern</i>	June 2025 <i>Kerala</i>
- Gained practical exposure to software development workflows, problem solving, and project-based learning. - Strengthened technical and collaborative skills through hands-on tasks and team-based activities.	
Techgentsia Software Technologies Pvt. Ltd. <i>Intern</i>	June 2024 <i>Alappuzha, Kerala</i>
- Gained industry exposure to software technologies, professional workflows, and collaborative development environments. - Developed practical understanding of technology-driven projects and professional team practices.	
Freelance UI/UX Designer & AI-Assisted Web Developer <i>Self-Employed</i>	2024 – Present <i>Remote</i>
- Designed responsive websites, landing pages, dashboards, and mobile application interfaces using Figma. - Created wireframes, user flows, design systems, interactive prototypes, and high-fidelity mockups.	

- Used prompt engineering and AI-assisted development workflows to transform project requirements into functional web experiences.
- Built and refined responsive web interfaces using AI coding tools, HTML, CSS, JavaScript, and modern development workflows.
- Applied AI-assisted debugging, rapid prototyping, and iterative development to accelerate website and application development.

Leadership & Design Experience

TEDx CCET	2024 – 2026
<i>Design Team Member / Design Team Lead</i>	<i>Alappuzha, Kerala</i>
• Progressed from Design Team Member to Design Team Lead while contributing to multiple TEDx CCET editions. • Led the creation of branding materials, posters, stage visuals, social media creatives, and event marketing assets. • Coordinated creative workflows and maintained a consistent visual identity across event platforms and promotional materials.	
National Conference (NCIPETC'25)	2025
<i>Design Team Member</i>	<i>CCET</i>
• Designed official certificates, event posters, banners, and promotional materials for the conference. • Created branding assets and maintained consistent visual communication across conference activities. • Collaborated with organizing teams to deliver professional and visually consistent event materials.	
College Magazine Committee	2023 – Present
<i>Design Team Member</i>	<i>CCET</i>
• Designed magazine layouts, cover pages, and publication graphics using Figma. • Collaborated with editorial teams to create visually engaging content and maintain design consistency.	

Achievements

IEEE Website Design Competition	2025
<i>1st Place Winner – UI/UX Designer</i>	<i>CCET</i>
• Secured 1st place by designing a modern and user-centered website interface using Figma. • Created structured layouts, interface components, and high-fidelity screens with a strong focus on usability and visual hierarchy. • Applied UI/UX principles and responsive design concepts to deliver a consistent and engaging website experience.	

Certifications & Professional Development

Introduction to Generative AI <i>Google Cloud</i>  View Certificate	Dec 2025
Solving Problems with Creative and Critical Thinking <i>IBM</i>  View Certificate	Jul 2025
Basics of Python <i>Infosys</i>  View Certificate	Jul 2025
Blockchain Foundation Program <i>KBA</i>  View Certificate	Sep 2025
UI/UX Assessment <i>LearnTube</i>  View Certificate	Oct 2024
React Essentials Workshop <i>Obcydians, CCET</i>  View Certificate	Oct 2024
NPTEL Certification <i>NPTEL</i>  View Certificate	Nov 2025

Industry Exposure

Industrial Visit	February 2025
<i>Techgentsia Software Technologies</i>	<i>Alappuzha, Kerala</i>

Technical Skills

UI/UX & Product Design: Figma (Expert), Wireframing, High-Fidelity Prototyping, User Flows, User Research, Information Architecture, Responsive Design

Design Systems: Component Design, Auto Layout, Interactive Prototypes, Visual Hierarchy, Design Consistency, Reusable UI Components

AI Development: AI-Assisted Application Development, Generative AI, LLM-Based Prototyping, AI Workflow Integration, Rapid Prototyping

Prompt Engineering: Prompt Design, Context Engineering, AI Coding Workflows, Code Generation, Debugging, UI Generation, Prompt Optimization

Web Development: HTML5, CSS3, JavaScript, React Fundamentals, Responsive Web Design, Front-End Development, API Integration

Programming: Python Fundamentals, JavaScript

Tools & Platforms: VS Code, GitHub, Netlify, Render, Supabase, MongoDB

Creative & Leadership: Branding, Poster Design, Social Media Creatives, Event Visual Identity, Team Coordination

Projects

Food Delivery Mobile App UI | *Figma, UI/UX Design* | [View Project](#)

- Designed a complete food delivery mobile application interface using Figma with modern and user-centered UI components.
- Created user flows, wireframes, high-fidelity screens, and interactive prototypes for key food ordering journeys.
- Applied usability, accessibility, visual hierarchy, and intuitive navigation principles to improve the overall mobile experience.

Online Grocery App UI | *Figma, UI/UX Design* | [View Project](#)

- Designed a modern online grocery shopping interface focused on product discovery, browsing, and ordering experiences.
- Created structured layouts, reusable UI components, and responsive design concepts using Figma.
- Applied usability, accessibility, and visual hierarchy principles to create a clean and intuitive shopping experience.

Trip Map Mobile App UI | *Figma, UI/UX Design* | [View Project](#)

- Designed a travel planning mobile application interface focused on route discovery, trip planning, and journey management.
- Created user flows, wireframes, high-fidelity screens, and interactive prototypes using Figma.
- Focused on intuitive navigation, clear information architecture, visual consistency, and a mobile-first user experience.
